What is CSA (Community Supported Agriculture)?

City folks have come a long way from the days of Mom's lovingly tended, homegrown tomatoes. Supermarkets and super-sized farms have disconnected us from the soil and our need to protect it for our own good. A CSA is about a direct relationship between farmer and consumer with the purpose of creating sustainability. As farmers, it is very encouraging for us to provide healthy food directly to you and to know that you are eating, and enjoying healthy and delicious produce.

How does the CSA work?

If you decide you want to enjoy our produce, fill out our [Application Form](#) and send it with your check to the Farm Office. We can send you a share of the farm produce in a carefully packed box, or you can choose to pick up your produce at a designated pickup site.

What's in a "Box"?

What's in a box depends on the season and the elements. You can be assured the varied produce you receive will be fresh, clean and plentiful. We work to give you a wide variety of seasonal, Natural Agriculture grown fruits, vegetables and herbs. You also get a Farm Newsletter with new recipes to excite the cook and updates informing you about Farm activities, with invitations to our special events.

Thank you.
